THE FUTURE OF FINANCE SUMMIT

The Asian Banker / 8-9 June 2017

The Asian Banker Summit has been re-branded as **The Future of Finance Summit**. It is now an exciting, all-inclusive annual gathering that will bring together a wide range of players - banks, fintech players, insurance companies, asset managers, investors and customers - who are shaping the future of finance. The Future of Finance will be a dialogue between the institutions and the customer so that they can experience and communicate their expectations of the industry.

The Future of Finance Summit will feature a host of amazing, unique and out-of-box speakers and panelists from seemingly unrelated fields, and alternative players who will help us break through our thinking on the transformations that are happening globally. At this Summit, we will place the customer at the centre of all our discussions and together assess the impact of finance in our everyday lives and understand the new wealth that is being created today.

WHAT'S NEW THIS YEAR?

Preparing for the new players in the Future of Finance

The co-author of the landmark Dodd-Frank Act that put in place the structure to govern the excesses of the 2000s outlines how the same legislation will put in place the rules by which the financial services industry can tackle the future without losing sight of its calling.

- **Barney Frank**, Chairman of the US Congress Banking Sub-Committee during the heart of the 2008 crisis and co-author of the Dodd-Frank Act.

Frontiers of Financial Technology

The recent breakthroughs by Google, Apple, Amazon and other players in making Artificial Intelligence (AI) more available on their platforms and across platforms is taking data and devices to the next level, after mobility. It bring together more insights into the data is innovation catalyst and leading expert on FinTech is exploring several major trends and technologies that are disrupting financial services today and will present his thoughts about how to stimulate regional innovation and build a supportive ecosystem that fosters start-ups

- **David Shrier**, Founder and New Ventures, Massachusetts Institute of Technology (MIT)

My Journey in the Revolution Shaping Finance

The founder of one of the world's first peer-to-peer lending platforms more than 10 years ago built his model without any contemporary to learn from. Today he is building an integrated wealth management model with the data and intimacy he is creating with customers Tang shares his insights as a leader, giving a snapshot of the current landscape and envisaging the potential or inevitable changes, and anticipates where the opportunities lie ahead.

- **Tang Ning**, founder and CEO, CreditEase, one of the world's largest marketplace lender and now an increasingly powerful wealth manager with a strong network covering 255 cities across China, as well as a worldwide network covering Asia, Israel, Europe and North America.

Leadership Dialogue on "How We Are Changing the World of Finance"

The speakers will be joined by a forward looking panel to try and construct how the industry is coming together in response to the inevitable changes in the world of finance. They will discuss the key influencers and factors in driving the revolution.

- **Barney Frank**, Former congressman, co-author of Dodd-Frank Act
- **Tang Ning**, Founder and CEO, CreditEase
- **David Shrier**, Founder and New Ventures, Massachusetts Institute of Technology (MIT)

Disruption, Pricing, and Frenemies in a Digital World

Technology has always had a deep impact on financial services, but the new chapter appears to be something different, and likely to result in bigger and faster transformations. Consumer expectations and behaviors have changed, and continue to change, driving waves of rapid technological innovation. These new products, services, and delivery methods have the potential to provide significant benefits for users of all manner of financial services – from expanding access credit to increasing the speed and convenience of payments. And yet, we need to be mindful of the range of risks these new activities produce, and ensure they are appropriately managed.

"High Net Worth" in the 21st Century: wealth is not only about being rich"

With Asia's growing number of high net worth individuals, it is an important time to learn how to utilize available products and opportunities to help achieve sustainable returns. In this opening session, we talk to experts with proven experience who has built his own wealth to give us an idea of the new asset classes that are becoming increasingly popular and how to think about them in addition to traditional assets like property and equities.

- Discussing investment types for different asset classes and how to think about them
- Exploring ways to align your investments with your personality
- Structuring a sustainable portfolio for uncertain times

A conversation with **Sam Phoen**, an experienced institutional and personal investor who has worked for banks as well as the GIC author of High Net Worth Investing and other experienced investors.

Panelists/Speakers include:

Eric Chua, Managing Director, Asian Wealth Community

Lucky Draw #1 – 5 iWatch prizes

TABx: Active Management versus indexed funds, is cheaper better?

As more and more investment companies promote indexed funds, what is the value to the customer? We put together a panel representing both sides of the arguments so that you can decide whether indexed investment funds are worth the savings on fees or whether it is still better to invest in funds managed professionally.

We ask fund managers with differing views to present their case and for you to decide which approach is better for you, and at what cost?

Brainstorm: How we look for and fund the business ideas that have the best chance to succeed

Asia has a distinctly differentiated investment landscape and climate from other economic hot spots like Silicon Valley and London. We break down the critical success factors of the winners that have caught the eye of the investor community.

We put together three astute investors who are in the business of identifying winning business ideas and companies to give us an insight on how they select winners.

Panelists/Speakers include:

- **Timo Dreger**, MD, Apeiron Investment Group
 - **Roger Crook**, CEO, Capital Springboard
 - **Slava Solodkiy**, Managing Partner, Life.SREDA-(invited)
- Moderated by:
- **Noor Quek**, CEO & Founder, NQ International (Asia/Mid East Family Office advisors/Human Capital placements)

Ideas: Crowdfunding as an alternative way to raise capital for business ideas. What should investor and entrepreneurs look for?

We talk to heads of funding platforms and ask them what the people who invest through their sites look for, and how they evaluate potential business ideas. Also how should entrepreneurs sell their ideas on these new platforms?

Panelists/Speakers include:

- **Nicola Castelnuovo**, Co-Founder and Chief Customer Officer, Crowdo
- **Kevin Lim**, Managing Partner, 1823 Ventures (invited)

Ideas: The Risk of Borrowing and Lending Money Between Strangers on the Internet

We talk to founders of new lending sites, to understand better how their business models work and how their risk management platforms work behind the scene and who gets to borrow and what the returns are for those who lend through these sites.

Panelists/Speakers include:

- **Nikhilesh Goel**, Chief Operating Officer, Validus Capital

The World of Bitcoin and Crypto-currency - On the Edge of a Cliff?

While Bitcoin's price has been reaching new highs, having surpassed the price of gold, its trading volatility has also been high. Its market momentum has been recently slowed by a number of factors including exchange regulation rejection and new fees.

Aurelien Menant, Founder and CEO, Gatecoin will give us an idea of all the new things that we can do with cryptocurrencies including paying for goods and services as well as investing,

Robo-Advisors – Does it really make me smarter than I would otherwise be in making the correct investments?"

With robo-advisors making wealth management more accessible to the general public, find what type of product is most suitable to you.

We speak to industry leaders on how the individual investor should use robo-advisors as a tool rather than a panacea to find all sorts of investment decisions.

Panelists/Speakers include:

- **Ned Phillips**, Founder and CEO, Bambu
- **Charlie O'Flaherty**, Partner and Head of Digital Strategy and Distribution, Crossbridge Capital

“One of the very best conferences – Broad in terms of topic and scope. The conference has very good attendance thus it is good in terms of interacting with people. There was real effort made by everybody to be up to date with new ideas.”

- Arkadi Kuhlmann, Founder & CEO, ZenBanx Holding

“The Asian Banker Summit remains very relevant to the current developments in the market; the regulating changes and the disruptive technology that have helped in the banking industry. The panelists boast good credentials and are also willing to share their experience in different markets in hope for the development of Asian markets.”

- Nguyen Ha, VP HSS Global Business Risk Review, HSBC

“Congratulations to The Asian Banker for doing a fabulous job in Hanoi. The event was very well planned and executed and we look forward to working with The Asian Banker in future.”

- Hitesh K Arora, Director, Strategy & Customer Advocacy, CRMNext

“I would like to thank The Asian Banker for organising this fantastic event with high quality banking crowd and good representation from technology companies. The exchange with bankers, fintech as well as thought leaders had been a very good learning experience.”

- Manish Goenka, Vice President & Head ASEAN, Techmahindra

TESTIMONIALS

“There is a lot more interaction and it is good to see how peers think in similar situations. It allows you to put on different thinking hat for a macro view for business and banks.”

- Michael Siward, Director, International Capital Management, Bank of America Merrill Lynch

“Excellent summit that was able to combine the banking side with real world operational side which needs to be underpinned by the bank.”

- Paul Fraley, General Manager, Dimensional Insight Asia

“It is great to see how the physical infrastructure is organised, all the preparations, pre-conference preparations, the line-up of speakers and topics. The summit is equipped with high profile speakers such as Congressman Barney Frank, Sanjay Kalra from the International Monetary Fund and the Governor of Central Bank in Vietnam addressing important topics that are relevant to the industry today.”

Full payment of the registration fees payable must be made within five (5) working days UPON RECEIPT of registration form. The Asian Banker reserves the right to refuse admission if payment is not received in full and before the event. Government taxes and bank charges are to be borne by the delegate. Unless otherwise stated in the booking form, payments must be made only in Singapore dollars or US dollar equivalent. Cancellations/Substitutions If you are unable to attend, a substitute delegate of your choice is welcome at no extra cost. Please provide information pertaining to any such substitute delegate in writing. In the event that you have to cancel, The Asian Banker accepts cancellation only in writing and not over the phone. The Asian Banker observes a NO REFUND policy for cancellations. In the event that The Asian Banker postpones the event, any payments made will be credited and valid for the rescheduled date. In the event that The Asian Banker cancels the event, delegate payments at the date of cancellation will be used as credit for The Asian Banker's future events. Credit is valid for up to 12 months from date of issuance. Important Notice The Asian Banker reserves the right to change event times, dates, sites or venue or alter the content and timing of the program or the speakers without penalty. The Asian Banker assumes no liability whatsoever if the event is changed, postponed, or cancelled due to unforeseen circumstances that would render the event impracticable and impossible. Unforeseen circumstances include but are not limited to Act of God, war, disasters, civil disturbances, acts of terrorism, curtailment on transport facilities, or any other emergency or perceived threat.

I do not wish to share any of my above-stated information with third party partners.
